### **Presidents message.**

**Get ready! Here comes the outdoor contests!!!** As your president, I have been head down and building at my usual feverish pace to get everything ready to fly.

**On that note we will be trim flying this coming weekend at the Snohomish field Aug 13 and 14 from 7:00 am until the wind blows us off the field.** (Typically about 10:00 –11:00) Bring em if you got em! I plan to trim out several of my models that have had winter “upgrades” since last season... Hope the grass is not mowed too short....Remember that the field is great for short flights only since it is simply not large enough for really extended flying.

SAM 8 will be sponsoring the O&R 23 event, the OT trophy and the OT E-36 RC events at the upcoming WMC contests.

Speaking of the upcoming WMC contest, We are going to have a great showing at the August 20-21 event. Rumor has it that no less than **FOUR** full size Buzzard Bombshells will be fighting for dominance of the OT fuselage event. How long has it been since you have seen that kind of Old Timer turn out?

Will Tilse and Yours Truly expect a **battle to the death** with our Stardusters 900's as both of our models are trimmed to perfection and hot as a scalded cat! Always fun to watch and bet on just who will blow a wing first.

**We have a new member George Neds.** Be sure to introduce yourself to George and make him feel welcome (as he is!). George sounds mostly a rubber flyer so all of us need to tune up our gumband models and show him how it's done.

Camping on the field in Tangent for those who want. Nothing like sunrise in Tangent! I hope to see all of you there with a model in hand! Most of us are planning to be at the field by Thursday night.

**Steve Dona "the Prez"**

## **SAM 8 Minutes for July 14th, 2016**

*Minutes of the SAM 8 Meeting for July 14, 2016*

*President Steve Dona opened the meeting to a group of 27 members at 11:55 AM*

*Dan Tracy showed up in a suit, vest and tie for the meeting. Prez Steve challenged each of us to show up similarly attired. Dan was on his way to another meeting so was dressed accordingly.*

*Chuck Bower reported on his trip to the Kibbie Dome and showed us his ornithopter. It was a great event and Chuck did well with his model. There was a strong representation of F1D flyers that put in some impressive flights. Chuck brought thanks from the organizers for our donation to help with their expenses.*

*The success of the Finn hill events this year was due to the event being published in the student newsletter in Steve's opinion. Now he will try to get the information into every student newsletter for the next season. Your scribe did not get the dates for the sessions for next season but they start in October and run through June, 2017. At the last session the kids built nearly 20 Mountain Lion Kits and they all flew quite well.*

*The club bought David Higgins a big piece of pie alamode for his excellent help with the Finn Hill events. More laser cut kits will be used next season to reduce the effort of putting kits together as the number of kids increases.*

*The first contest of the season for the WMC is August 19 to 21! If you are not ready to go you are behind schedule!! SAM 8 sponsors two events at the contest. One is the Ohlsson 23 event and the other is an Old Time Trophy of Old Timer events.*

*The Snohomish Field is again being worked on by Dave Cassell. This time it is a Drone Club. David says the Drone Club seems eager to make our usage as painless as possible so keep tuned!*

*There was a small auction of items brought by Nick and David Higgins.*

*Prez Steve closed the meeting after the auction at 12:53 PM.*

## **ACTIVITIES: .....Snohomish Field Flying!. From Steve Dona.**

*Gentlemen! Time to get those models dusted off!*

***Bring your new models to the upcoming meeting and there will be a free lunch awarded for the best one. (Using the typical acclaim method)***

*We are now scheduled to use the **SNOHOMISH** field this coming weekend **BOTH MORNINGS** from 7:00 until about 10 or 11 (whenever the winds come up)*

***Beautiful grass testing field! No worries about Elk poop!***

*No RC our area is only approved for free flight use. (don't want to conflict with the RC guys in the same field.) If there is a large interest in RC flying, we can look into the possibility of joining in with the RC group but at this time, we do not have permission to do so.*

*Gas, electric power and rubber allowed. (short DT recommended)*

***Bring 'em and trim 'em out before the upcoming WMC meets!***

***Come meet our newest member!***

**OTHER ACTIVITIES.....**

...A little short this month, with no pics. Perhaps after the outdoor FF sessions, we'll get some very interesting images!

**In Memoriam.....**

Some recent passings on the circular flight side of things made me continually aware of our fragility and mortality. These guys had been on the CL modeling scene for 40 years or more and we'll miss them. ....our ranks are thinning...and these weren't the oldest guys, either....

This year we lost Rex Abbot, Don McClave, Don Schultz and Tom Strom.

Earlier, we lost Gil Coughlin (yes, he flew CL!), Rich McConnell and Lee Uberbacher

**Classifieds: Come on, guys! Y'all must have SOMETHING you want to part with!.....**
