Subject: 103 PT-19 - Featured in the March issue of Flying Models

Fairchild PT-19 Military Trainer

April 6, 2013

Larry Kruse has been writing a monthly article he calls "F/F Sport" in the Flying Models magazine for a number of years. A few days ago I received the current March issue of the Flying Models magazine in which Larry has featured my PT-19 rubber powered model in this month's article. For those of you who do subscribe to the Flying Models magazine, Larry's article is contained in the attached PDF file above. In the article, read the section "*Chronicle of a build*" in which he discusses my model.

Sadly, this is Larry's last article for Flying Models as he is retiring from the magazine. However, at least he will have more time to build and fly model airplanes.....Tandy
