UPS delivered my order from Kurt Massey of New Creation RC this afternoon. The eight items pictured below are as follows:

1. AXI 2217/12 Outrunner
2. Radial Munt for AXI 22 Series Motors
3. Gold Bullet Conn Set 3.5 mm (3)
4. 25A BL ESC w/BEC
5. APC 9 X 4.5e Prop (*I ordered an APC 9 X 5e, but APC does not make one*)
6. HS-55 Servo Hitec/JR (2)
7. 1800 mAh 3S VG8 PerPro 45C LiPo Battery
8. 2100 mAh 3S G8 PL25C LiPo Battery

I want to share the story behind why I received the Thunder Power 1800 mAh 3S VG8 PerPro 45C LiPo Battery. When Jay Burkart originally sized the Waco SRE power train for me, he came up with the Thunder Power 3300 mAh 3S 45C LiPo Battery to provide approximately 30 minutes of flight time, but neglected to consider how large and heavy this battery actually was. So when I first place the order with Kurt, he suggested we might want to revisit this battery selection because it measures .8"x 1.7"x 5.4" and weighs 9.3 oz!

After discussing this with Jay, he agreed that the battery size and weight was important and came up with the smaller Thunder Power 1800 mAh 3S VG8 PerPro 45C LiPo Battery that would provide 14.9 minutes of flight time. It measures .9"x 1.2"x 3.9" and only weighs 5.3 oz. So I called Kurt and placed the order for this battery.

A day or so later Jay and I settled on yet a different battery of essentially the same size and weight that provide 18.8 minutes of flight time. This battery is the Thunder Power 2100 mAh 3S G8 PL 25C LiPo and measures .8"x 1.4"x 4.0" and also weighs 5.3 oz. So I called Kurt back again and told him I wanted changes my battery order again. He said it was too late to change the battery order because he had already ordered the Thunder Power 1800 mAh 3S VG8 PerPro 45C LiPo Battery at a cost to him of \$49.99. Since this whole fiasco was my fault, I understood his position completely. I told him to go on and order the Thunder Power 2100 mAh 3S G8 PL 25C LiPo battery also and I would take both batteries. And so friends that is how I ended up the Thunder Power 1800 mAh 3S VG8 PerPro 45C LiPo Battery.....Tandy
