Report No. 79

*Veco Pursuit*

*January 25, 2022*

This morning the pins and strips of green tape were remove. The pin holes in the planking were sealed by steaming them shut. This picture shows all of the wing's bottom 1/16" planking complete. The next task will be to plank the center section and LE of the top of the wing. Since this will take a couple of days, there will be no more reports until the top planking is finished.....Tandy
